

VISION PLM

Vision PLM enables fashion and softgoods companies to succeed in this challenging business environment by leveraging the true potential of the internet to deliver the most comprehensive and advanced set of product lifecycle capabilities available today.

Your Vision, Our Solution

Today's fashion and softgoods retailers, brands, and supply chain partners are challenged to meet increasing consumer demand for more innovative products with greater frequency and value.

Vision PLM is a best of breed, full featured Product Lifecycle Management software solution; a multi-platform browser based client. Vision PLM includes PDM, merchandise planning, multi-level project management, user and role based calendars, automated internal and external notification system, field based workflow management, costing, PDM interface designer, search designer, data integration manager, document management, on-line image editing, integrated Illustrator image editing, dynamic reporting tools and a full-fledged data warehouse.

FEATURES

Accelerate speed to market.

Reduce costs and increase profitability.

Gain visibility into business processes.

Enhance creativity and flexibility.

Facilitate global collaboration.

Improved time and calendar management.

Enable more timely and better-informed decisions.

"We were looking for a solution that would replace our current systems, both manual and automated, and provide a new integrated platform between all departments. After reviewing many solutions, we realized that Jesta I.S. understood our business and could offer us a complete solution to support our growth plans."

J. McLaughlin

Steven Siegler, CEO
