

Remove the guesswork and subjective judgement related to color with **Color Pro**.

If you are like most companies, the quality and reliability of your products are your brand differentiators.

Color Pro allows you to instantly and objectively validate the compliance of a color according to your validated sample. Its easy-to-use device enables you to know with absolute certainty that the color of the inspected product is within your acceptable tolerance range.

Color Pro

- Remove subjective judgment
- Cloud-based for instant data access
- Works on all types of surfaces (Fabric, wood, metal, plastic, etc.)
- Access data on mobile devices
- Track and measure supplier performance
- Patent-pending technology
